

Forschungs- und Entwicklungszentrum für Embedded Systems

Brunel
Car Synergies

Bachelor's and Master's theses

e.g. use of data analytics in system monitoring, AI in the context of software development and in the context of software unit tests (later unlimited takeover possible)

(Junior) Software oder Hardware Designer (m/f/d)

(Junior) Project Manager (m/f/d)

We develop electronics and software in-house for our customers in the medical sector, rail transport technology and the renewable energy sector, among others.

We are on a growth course and are continuously hiring for our research and development center at the Hildesheim site (Daimlerring 9).

Do you have your bachelor's or master's degree in your pocket and want to make a fresh start or are you looking for an exciting thesis?

Got you interested? Drop me a mail, give me a call. Let's start the conversation on your future.
